

**DO YOU KNOW WHO KARL VON TERZAGHI IS?  
CAN YOU EXPLAIN WHY THE LEANING TOWER OF PISA LEANS?  
DID YOU LIKE TO PLAY IN THE DIRT AS A KID?  
*Great! Then you can probably work for us!***

**IMMEDIATE EMPLOYMENT OPPORTUNITY  
SENIOR GEOTECHNICAL ENGINEER  
Overland Park, Kansas**

*Geotechnology, Inc. is looking for a multi-talented engineer!!! That means senior level geotechnical engineering, project management and business development experience. We know we're asking a lot, but we believe this will be a rewarding role if you're up to the challenge!*

**WHO WE ARE BRIEFLY:** Geotechnology Inc. is a leading geoenvironmental consulting firm in the Midwest with **great resources** and capabilities that enable us to tackle challenging, complex projects and partner with great clients for an interesting mix of small and large projects. We're a private, **employee-owned** corporation that's been **growing** since 1984 (which is why we could possibly be hiring you if you send us your resume) and we're looking for an innovative, solutions-oriented person to be a leader in our Overland Park office of **25 go-getters**.

**YOUR RESPONSIBILITIES:** The Senior Engineer will assist with **business development** and perform and/or coordinate the **technical aspects** of project work (data review and analysis, engineering recommendations, and report writing). This position includes the management of **client relationships** and contracts for a variety of commercial, industrial, and infrastructure projects.

**WE'RE LOOKING FOR:** (Insert Your Name Here) must... demonstrate **excellent interpersonal skills** in communication, management, and leadership with clients, peers, subordinates, and superiors • be able to perform project **work on schedule and within budget** • be computer literate in word processing, spreadsheets, and appropriate engineering software • possess a **MS in Civil or Geological Engineering** with emphasis in Geotechnical Engineering or Geological Engineering • have **10+ years** related professional experience in geotechnical engineering for commercial, municipal and industrial projects • possess strong verbal and written communication skills, and proven problem solving and marketing skills • hold **PE registration in KS and MO** (or ability to obtain registrations within 6 months of hire) • possess a valid driver's license with an acceptable driving record.

**WHAT'S IN IT FOR YOU? CONTACT US AND FIND OUT!**
