**FOR IMMEDIATE RELEASE**

**GEOTECHNOLOGY, INC. ANNOUNCES NEWEST SHAREHOLDERS**

**ST. LOUIS (May 7, 2007)** – Geotechnology, Inc., a geotechnical and environmental consulting firm, is pleased to introduce three new shareholders: William Casey Jones, Jeffrey Klein and Douglas Lambert. Existing shareholders invited the three employees to join them in ownership of the company, which brings the total number of shareholders to 15. Geotechnology is a private, employee-owned company.

The new shareholders were extended an invitation to purchase Geotechnology, Inc. stock based on a number of traits and skills, including contribution to the company in comparison to peers, passion for company success, superior profitability in project management, technical leadership, setting a good example for others, team player, long term outlook, high energy and enthusiasm and the ability to bring in work for the company.

The new shareholders are based either at St. Louis headquarters or the Kansas City branch office and have been with Geotechnology between five and 20 years.

**William Casey Jones, P.E., P.G.** is Kansas City Branch Manager  
**Jeffrey Klein, P.E.** is Senior Project Manager on the Development Team  
**Douglas Lambert, R.G.** is Senior Project Manager on the Transportation / Infrastructure Team

The 12 existing shareholders include Ed Alizadeh, John Baker, Frank Callanan, Steve Fults, Dominic Grana, Kenny Hemmen, Jim Howe, Phil Jozwiak, Duane Kreuger, Matt McQuality, Rick Pershall and Dale Smith. Geotechnology, Inc. was founded in 1984 by six Professional Engineers, including John Baker, the only co-founder remaining with the company.

“It is gratifying and exciting to grow our ownership group to 15 people, which puts us close to our goal of having 15% of our employees as owners,” said Ed Alizadeh, president and chairman of the board of Geotechnology.

Geotechnology, Inc., is an employee-owned, professional corporation offering a comprehensive range of consulting services in applied earth and environmental sciences, including geotechnical and environmental engineering, materials testing, geophysics and drilling. Geotechnology has provided expertise on nearly every major construction project in the region, including the new Busch Stadium, Lambert Airport expansion and Ameristar Casino St. Charles. Geotechnology, Inc. is based in St. Louis, Missouri and has offices in Collinsville, Illinois and Overland Park, Kansas. Geotechnology has 120 employees and recorded \$13.4 million in sales in 2006.
