FOR IMMEDIATE RELEASE

**Joe Darmody Joins Geotechnology to Lead
Compliance and Testing Section**

St. Louis (August 2006) --- Joseph D. Darmody joined Geotechnology, Inc., a leading provider of a comprehensive range of consulting services in applied earth and environmental sciences, as a Senior Project Manager in the Environmental Group. Within this group he will supervise the Compliance and Testing Section.

Darmody brings 15 years of environmental consulting, project management and business development experience to the firm. He specializes in air, water, regulatory compliance and indoor air quality projects; including air permit preparation, emission test plans, water quality permit applications, and Spill Prevention Control and Countermeasure (SPCC) Plans. He is experienced in conducting regulatory compliance audits and air emission characterizations for various industrial facilities.

Darmody holds a Bachelor of Arts in Chemistry from St. Louis University and a Master of Science in Industrial Hygiene from Central Missouri State University. He is a licensed Asbestos Inspector in Missouri and a Certified Visible Opacity Observer. He currently serves as Chairman of the St. Louis Section of the Air & Waste Management Association (AWMA) and is also a member of the American Industrial Hygiene Association (AIHA).

Geotechnology, Inc. is a professional corporation offering a comprehensive range of consulting services in applied earth and environmental sciences, including geotechnical and environmental engineering, materials testing, geophysics and drilling. Geotechnology is headquartered in St. Louis, Missouri and has offices in Collinsville, Illinois and Overland Park, Kansas.
