**FOR IMMEDIATE RELEASE**

**GEOTECHNOLOGY HIRES ROBIN REYMOND AS STAFF SCIENTIST**

ST. LOUIS (April 29, 2008) -- **Geotechnology, Inc.** -- a leading provider of geotechnical and environmental engineering, materials testing and drilling – has hired **Robin Reymond** as Staff Scientist in Geotechnology's Environmental Group.

Ms. Reymond started in the fall of 2007 in the St. Louis headquarters office as a contract employee and will continue to work on wetlands and natural systems projects. She holds a Bachelor of Science degree in biology with a botany emphasis from Southern Illinois University-Edwardsville and is a Certified Arborist.

Her expertise includes bio-stabilization stream restoration, low-impact development best management practices, Section 401/404 permitting, activities related to acquisition of land disturbance permits, tree delineations, native planting plans and plant selection. She is a member of both the Society of Wetland Scientists and the International Erosion Control Association.

###

Geotechnology, Inc., is an employee-owned, professional corporation offering a comprehensive range of consulting services in applied earth and environmental sciences, including geotechnical and environmental engineering, materials testing, geophysics and drilling. Geotechnology has provided expertise on nearly every major construction project in the region, including the new Busch Stadium, Lambert Airport expansion and Ameristar Casino St. Charles. Geotechnology, Inc. is based in St. Louis, Missouri and has offices in Collinsville, Illinois and Overland Park, Kansas. Geotechnology has 120 employees and recorded \$14.8 million in sales in 2007.
